AmerisourceBergen

# FREE repairs and servicing

## On all Securos Surgical Hand Instruments

We are committed to ensuring that your Securos branded instruments remain in prime condition throughout their working life. Preventative maintenance of your surgical instruments will not only allow you to perform better surgery, but will also extend the life of your surgical instruments.

Simply order your free instrument repairs pack from Centaur Services

**order code: 30385538**

### Submission Process

Complete all of the details on the repair request form

Place clean, carefully wrapped instruments in clear bag provided

Insert the form, facing up and seal the bag

Hand the repairs bag to your Centaur Driver

Repairs are returned in 5 working days with your subsequent order

\*Free repair excludes instruments that have been used inappropriately or are deemed to be end of life. Securos Surgical's instrument repair services include inspection, scissor sharpening, orthopaedic instrument sharpening, alignment of jaws and tips, complete instrument refurbishing and lubrication. Does not include TC jaw replacement.

**FREE repairs and servicing applies to the entire Securos Surgical Instrument line.**
